Key Competence

- System Engineering
- Enterprise Engineering
- Control Systems
- Product Management
- Project Management

Résumé

Ahmad Shakeri has more than 15 years of experience in working with multi-disciplinary systems focusing on system analysis, system design and system realization. He has accepted positions and performed projects in well known Norwegian and international companies such as Sintef, Statoil, Ericsson, Tandberg Data, Autronica Fire and Security, Kongsberg Defense and Aerospace.

He has worked with and managed many international projects being delivery projects or development projects. He has managed many out-sourcing projects.

Ahmad Shakeri has several years international marketing experience in the oil & gas sector, telecommunication sector, shipping and VTS.

Ahmad Shakeri has authored and co-authored many international papers. He joined Ecoxy AS in August 2009.
