

Curriculum vitae

Bjørn Haukebø

Position

Managing Director

Education/Academic Degree

B.Sc. Graduate Civil Engineer); Main Subject in structural engineering, Trondheim College of Engineering (Sør-Trøndelag University College).

Key Competence

- Business development
- Technology qualification
- Project management

Résumé

Bjørn Haukebø has more than 30 years of experience from different employments and has pursued engineering and management problems related to structural design of building constructions, high voltage transmission lines, modification and maintenance of oil platforms, through his entire professional career. In 1991 he initiated and managed the oil and gas service activity in Linjebygg AS that was the foundation stone for today's Linjebygg Offshore AS. Rope access technique opened up for new methods to perform heavy jobs in the splash zone, under the deck and in the flare stack at oil platforms. In 1998 he was one of the founders of Axess AS and held the position as chairman of the board of directors for 7 years. Since January 2004 Bjørn has been the Managing director of Ecoxy AS (renamed from Axess Energi og Miljø AS in 2006).
