

# Curriculum vitae

Ingvar Garåsen

---

## **Position**

Project Engineer

## **Education/Academic Degree**

B.Sc. Mechanical Engineering, HiST university college in Trondheim

Main subject: Construction

Sergeant school, Telemark battalion

## **Key Competence**

Mechanical construction, FEM analysis, Field emission measurements, Otto and Diesel combustion engines

## **Rèsumè**

Ingvar Garåsen joined Ecoxy in 2008. He has performed numerous emission measurements on diesel engines, mainly on ships but also on land-based installations, including gas turbines and one locomotive. He has also worked with development and testing of technology for reduction of emissions from diesel engines. Ingvar Garåsen co-authored a paper presented at the CIMAC conference in Bergen in June 2010, about one of the emission reducing technologies which Ecoxy has been involved in the development of.
